Interests

- Frontend Development
- Mern Stack Development
- Web Designing and Development

Technical Skills

- Front end - HTML, CSS, Bootstrap, JavaScript, React JS,REST APIs
- Back end-Node JS, Express JS
- Database-Mongo DB
- Git and GitHub

language

- Tamil
- English

Soft Skills

- Adaptability and Problem Solving
- Creativity
- Time Management

Projects

- **Online Food Order Web site**
  I developed an innovative online food ordering platform using the MERN Stack, featuring a polished and responsive front-end design achieved through HTML, CSS, and Bootstrap. The platform enables seamless browsing and ordering for users, with real-time updates on order status and secure payment gateways enhancing the customer experience. Additionally, it supports contactless saline level monitoring, emphasizing its adaptability and relevance in today's market.
- **E-Commerce Website**
  I developed Shop ease, an e-commerce website using the MERN Stack, featuring a sleek and responsive front-end with HTML, CSS, and Bootstrap. The platform enables easy product browsing, real-time inventory updates, and secure payment gateways to enhance the customer experience.

Certification

- I completed a certified course on Full Stack Web Development (MERN Stack) in 2024, gaining expertise in building responsive and dynamic web applications using Mongo DB, Express.js, React.js, and Node.js.
- I successfully completed a JavaScript mini-project certificate, demonstrating proficiency in developing a to-do list, calculator, and digital clock. This achievement reflects my dedication to learning and mastering essential programming skills.
